

## **The Homer Foundation**

### **2008 Community Needs and Opportunities Survey**

#### **HELP US SERVE OUR COMMUNITY**

The Homer Foundation is asking you to take a few minutes to answer the following four questions about community needs and opportunities. As a key member of our community, you can provide valuable insight into the issues. Your responses will help us set the course for where and how the foundation can best serve our community.

#### **Community Needs**

1. What do you think are our community's top three most pressing needs?

2. What obstacles stand in the way of progress for each area of need you identified? How do you think we can overcome these obstacles?

## **Community Opportunities**

3. What do you think are our community's top three most promising opportunities for quality of life? Why?

4. What current community improvement efforts do you consider the most encouraging? Why?

## **Homer Foundation's Role**

The Homer Foundation works to strengthen our community. The roles we play include acting as a grant maker, a catalyst for change, a convener, and a coalition builder.

In addition to the above responses, we invite you to share your opinion on what roles you feel the community foundation should play, and what resources could we bring to really make an impact on the community needs and opportunities you have identified.
